

Furthering Opioid Prevention and Education in Hamden's Community

My name is Margaret Bossie. As the Prevention Corps Member serving with Hamden Youth Services, I am working on collaborative prevention methods including asset-based programming and community events. Prevention Corps is a branch of the AmeriCorps service network focused on education and prevention concerning the opioid epidemic.

I am able to provide *free* trainings in the usage of NARCAN, the opioid overdose reversal drug, and ASBIRT/SBIRT, a non-clinical and non-diagnostic assessment tool to address substance youth with adolescents.

Please reach out with any questions, comments, suggestions, and/or to request a training!
