About Us

The HEF is a community organization dedicated to enriching the tradition of excellence in the Hamden Public Schools. The Foundation forms a bond between community members who care deeply about our students and the educators dedicated to teaching them.

Since 2001, HEF has awarded over \$750,000 in Innovation Grants and Scholarships supporting teacher-driven initiatives in technology, engineering, mathematics, reading, foreign languages, creative arts, social development, and parental engagement, as well as scholarships to support Hamden High School students.

Our newly founded **Hamden Alumni Association's** (HAA) mission is to create a lifelong and nationwide community of alumni by increasing opportunities for meaningful engagement, as well as increase awareness, pride, participation, volunteer involvement, and philanthropic commitment to the Hamden Public Schools
